For immediate release

Dosher Announces Service Changes During Hurricane

The Dosher Memorial Hospital Team understands that this is a trying and anxious time for local residents. We are hoping for the best for all in Dorian’s path and are here to serve our community when you need us.

A few facts to keep in mind:

1) Dosher Memorial Hospital is rated to withstand winds much stronger than those forecasted, and is a safe structure for our hospital team and patients.
2) The Emergency Room is fully staffed and operational for the duration of the storm.
3) The hospital will continue to accept inpatients.
4) However, all outpatient therapy appointments have been canceled.

The following clinics will be closed Thursday September 5th and Friday September 6th:
