Doshier Foundation raises over \$730,000 in Fiscal Year 2020-21

SOUTHPORT— Doshier Memorial Hospital Foundation has received more than \$730,000 in donations, grants, endowments, and fundraising over the course of the hospital’s last fiscal year. These funds were used to purchase equipment, services, and support programs benefitting the hospital and its patients. Foundation purchases include:

- Emergency Room EKG Machine - \$20,000
- Operating Room Ultrasound Machine - \$35,400
- Cardiac Rehab Center Bike - \$3,149
- Onsite Backup Water Well System - \$378,000
- Operating Room Treatment Items - \$4,108
- Brunswick Community College Scholarships - \$3,000

While certain annual programs were delivered on virtual platforms this year instead of face to face, the Doshier Foundation remained successful in its mission of securing funds through community events. The 2021 Gala, a virtual event, raised over \$50,000, and the Doshier Foundation Golf Classic also raised over \$50,000.

“We are grateful for the continued support of our community and our partnerships with a number of charitable foundations who have prioritized Doshier in their giving plans,” said Lynda Stanley, President and CEO of Doshier Memorial Hospital. “Every contribution makes a difference and enhances the services and programs that our local hospital has to offer.”
