Doshier Issues Restrictions on Visitor Policy

SOUTHPORT— In order to protect patients and staff, Doshier has restricted visitation guidelines on both our Patient Care Unit and Emergency Department, effective immediately:

- Designated visitor must not have a cough, shortness or breath, or fever
- Only ONE (1) DESIGNATED VISITOR over the age of 18 allowed during the entire PCU stay. This visitor must be designated at time of admission and cannot change.
- Patients in our Emergency Department are allowed to be accompanied by ONE (1) DESIGNATED VISITOR over the age of 18 allowed during their visit.

Thank you for your understanding and cooperation of these enhanced safety measures.
