## **Doshier Medical Practices Implement Telehealth Services**

SOUTHPORT - Doshier Medical Practices are now providing telehealth visits for established patients through our Doshier network of providers.

This is an additional safety measure we are taking in light of the COVID-19 pandemic. Appointments are scheduled by calling your provider's office, and at that time, it will be determined if a telehealth visit is appropriate for your medical condition.

In order to utilize telehealth, you will need an email account. You will also need access to a smart phone or computer with camera and sound.

Contact your provider's office to see if your appointment is eligible for a telehealth visit.
