Hospital Patient Portal to transition to My Care Corner

SOUTHPORT - On August 31st, Doshier will go live with a new patient portal for inpatient and outpatient hospital records, through My Care Corner. This electronic portal enables registered patients to access hospital health records anytime, anywhere.

If you are a current user of the hospital's Thrive portal, you should be automatically redirected to My Care Corner on August 31st. Follow the prompts to log in. New users can go to MyCareCorner.net to set up a personal health account.

Please note that this migration is for the hospital portal only (does not apply to the Doshier clinics).

If you need any assistance, please contact the Doshier Medical Records Department at 910-457-3863, Monday – Friday, 8:00 am – 4:30 pm.
